### Wooden Numbers 0 to 10

### HABA Education Art. 133930 Willy's Wooden Numbers 69,- GBP

With features that match the number: on the number 7, for example, are 7 hearts.  
Contents: 11 numbers with fitting rods and stands made of wood.  
Dimensions: height approx. 14 cm, wooden base 10 x 10 cm.

### Mini Number Houses (for tables)

### HABA Education 133523 Willy's Mini Number Houses, Set 96,- GBP

15 houses, little fabric flags with numbers from 1-10 and wooden pegs. Dimensions (without flags): w 7 x h 9.5 x d 6 cm. Number path tiles 0-20 (0, 10, 15, 20 with blue, the others with black print) and number gardens 1-10.

Material: grey and green felt, 5 mm thick.

Dimensions: number path tiles 3.5 x 5 cm, number gardens ø of the 1: 15.5 cm.

### Mini Number Towers 1 to 10 (for tables)

### HABA Education 133916 Willy's Mini Number Towers 1-10 26,- GBP

Wooden cubes with dots in red, yellow, green and blue as well as drilled holes on two sides for pegs.

Contents: 55 cubes, 55 pegs and 1 set of instructions with play and exercise ideas.

Dimensions: 2,5 x 2,5 x 2,5 cm

Material: multiplex birch; pegs made from beechwood, black lacquer, saliva-resistant varnish, with rounded edges.

### Number Flowerbeds and Meadow

### HABA Education 068150 Willy's Number Meadow 59,- GBP

Children can become familiar with various number ranges from 0 to 100 while playing on this giant „number meadow“. The little flower beds represent the ten frames and are used to learn the number ranges up to 5, 10 or 20. Flowers are industriously planted, picked and symmetrically mirrored here. And when mischievous goblin "Hodgey Podgey" shows up, helpful "Forgetmenot", the Fairy of Numbers has her work cut out to straighten out things. Short introduction stories help children remember what they've learned. Incl. instruction booklet with lots of game ideas.

Felt and wood. Number meadow 55 x 55 cm, printed on both sides; flower beds 27.5 x 5.5 cm, printed on both sides.

### Number Path from 0 to 20

### HABA Education 133074 Willy's Number Path 87,- GBP

Number Lane leads into and out of Numberland... endless activities.

The non-slip number boards are extra-large so that children can easily stand or jump on them, even in pairs. They are printed with numbers from 0 to 10 or 0 to 20. For better guidance, the colours of the numbers 0, 5, 10, 15 and 20 stand out.

Dimensions: 29 x 29 cm.

## Big Number Houses 0 to 10

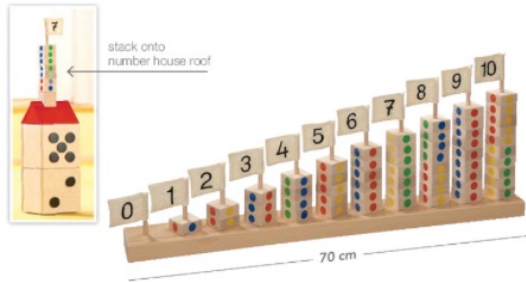

## HABA Education Art. 133931 Willy's Number Houses 298,- GBP

15 houses with 1 - 5 boreholes for the pegs and 1 house without hole as 0. The numbers 6 - 10 can be represented by either stacking two houses or by placing them next to each other. For duplexes, 5 additional roofs are required.

Contents: 16 houses (13 x 13 x 13 cm), 11 roofs (height: 7 cm), 11 chimneys, 11 flags, 55 black pegs, 10 natural-colour pegs.

## Number Towers 0 to 10

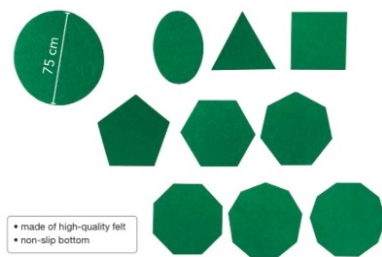

## HABA Education 133932 Willy's Number Towers 88,- GBP

15 houses, little fabric flags with numbers from 1–10 and wooden pegs. Dimensions (without flags): w 7 x h 9.5 x d 6 cm. Number path tiles 0–20 (0, 10, 15, 20 with blue, the others with black print) and number gardens 1–10.

Material: grey and green felt, 5 mm thick.

Dimensions: number path tiles 3.5 x 5 cm, number gardens ø of the 1: 15.5 cm.

## Big Number Gardens 1 to 10

## HABA Education 133934 Willy's Big Number Gardens 117,- GBP

The number gardens relate to the geometric aspect of numbers: the 3 as triangle, the 4 as square etc. Each number from 1 to 10 has its own number garden. Number 2's garden is an ellipse but can also be turned into a semi-circle.

Material: felt lawn with slip-proof bottom surface. Colour: green.

Dimensions for comparison: circle diameter 75 cm, ellipse 100 x 60 cm.

## Magnet Game

## HABA Education 057909 Willy's Magnet Game 87,- GBP

Two magnetic wall panels show the number gardens and are complemented with lovingly designed magnets featuring the number houses, number animals and many accessories. The mischievous goblin "Hodgey Podgey" who always mixes up things as well as helpful "Forgetmenot", the Fairy of Numbers are also there. Match the magnets to the relevant gardens and re-set the scene over and over again – a fun way to playfully familiarise with the numbers up to ten. Panels are easy to mount on a wall and come including mounting material.

Contents: 2 coated metal plates L 70 x W 50 cm, approx. 172 different

## HABA Boardgame Number Gnomes

## HABA Education 114559 HABA Number Gnomes 38,- GBP

Hodgey Podgey has buried valuable treasure in Numberland. The number gnomes go counting and feeling and with a lot of imagination on a treasure hunt. But the cheeky gnome is not far away and gets things going

- attractively illustrated number learning game
- game material stimulates imagination, haptics, and cognitive thinking
- ideal as a supplement to "Willy's Number World"
